## WHAT THE SIGNS FORETELL

Prophets Sure of Results, But Election  
Count May Bring Big Surprise

Although the interest in politics has been stimulated somewhat in the closing days of the campaign, yet the dawn of election day finds little excitement in regard to the fight of ballots, which has been overshadowed in the press and in public opinion by the fight of bullets across the water. This situation, however, does not necessarily imply that the voters are apathetic, but rather seems to indicate that the tendency this year, as has been the case for a few years past, has been for each individual to make up his mind in regard to the questions of the day as they arise, so that he does not care to discuss them or hear them discussed as volubly as was the case. This was indicated by the slim attendance at the democratic and progressive rallies held recently. The republican party had no speakers here, thinking the situation was in their favor, and, on the other hand, the time of the manufacturing establishments would be conclusive arguments in their favor.

Considerable confidence is manifested by both parties in the outcome of today's election, but the prevailing sentiment seems to be that this is a republican year. Undoubtedly, the local candidates on both state tickets, Comptroller Daniel P. Dunn, Attorney George E. Hinman for attorney general, Charles A. Gates for sheriff and Frank E. Fenton for senator from this district, will all receive large complimentary votes in Windham, and the feeling in this section is that all the candidates have a better chance of election than has Bryan P. Mahan for representative.

Townwise, while Judge James A. Shea, who has given satisfaction in the office, seems likely to be re-elected judge of probate, there is considerable talk of a split ticket in the case of the two representatives. Windham may be called a democratic town of recent years, but the majority is not so large but that the republicans feel confident of electing at least one representative this year.

The result will be known, however, when the votes are counted, and not before, and there may be many surprises in store for the "sure thing" talkers. Unless indications fail, it will be a long way into the morning before Windham's vote is announced.

The polls will be open from 6 o'clock in the morning until 5 in the afternoon and everyone who has an opportunity is being urged to vote early.

## TAXPAYERS SLOW

Only About 1,500 Out of 2,000 File Their Lists

The board of assessors brought their labors to a conclusion, as far as public hearings are concerned, Monday afternoon, that being the last day on which the taxpayers could appear and file their lists. The total number filed is estimated to be slightly in excess of 1,500, so that many residents of the city will be ten per cent under the law for failure to file the necessary statement. Last year the total

## Crave Liquor

They are neither willful nor stork but are poisoned with alcohol and cannot resist the craving for drink. They should not be censured or forsaken, but should be encouraged to take the Neal Drink Habit Treatment, which is a safe, sure vegetable remedy that will remove the craving and necessity for drink in three days—without the use of hypodermic injection—and restore them to sobriety and self-mastery. The Neal Treatment can be arranged for those who desire it. Sixty Neal Institutes in the United States, Canada and Australia are annually saving thousands of drinking men and women from mental and physical ruin. Call and investigate the Neal Treatment. ## TURN HAIR DARK

## WITH SAGE TEA

Grandma kept her locks dark, glossy and thick with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandma's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 10 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustrous and appearance of youth which is so attractive; besides, prevents dandruff, itching scalp and falling hair.

number of lists in the town was approximately 2,000. Some of the troubles the board has were exemplified Monday in the case of one resident, who had recently bought a piece of property, which was put in the list for \$1,500. He registered a kick, and at first a friend who was with him stated that the land was bought for about \$1,400. Further inquiry developed the fact that the purchase price was \$2,000, whereupon one of the assessors said he did not see where the man could find much fault. The reply was "Oh, well, I don't kick very hard." It is hard to understand why objections are made in Willimantic, where the true valuation is supposed to be, as nearly as possible, the basis of taxation.
